

Navigating the Medicare Maze

On Thursday, November 17, Noble Horizons will host, "How to Navigate the Medicare Maze: What You Should Know Before Enrolling in Medicare" at 12:15 pm in the Learning Center. A free light lunch will be provided at Noon.

The recent arrival of the 148-page Medicare Instruction Booklet (8 more pages than in 2011!) is testament to the challenges associated with understanding and selecting the best plan among the alphabet-soup of Medicare options. It is important to note that this year's enrollment period ends earlier with a deadline of December 7.

Eric Friedman, from the Western Connecticut Area Agency on Aging, will carefully outline the components of Medicare, explain the options, elucidate the plans, and ensure that all routes through the Medicare maze can be easily navigated. Please call 860-435-9851, ext. 190 or visit www.noblehorizons.org to register.
